### **CONRAD ZIMMERMAN:**

The advice that I would have for students is just to take that step. Take that leap. And you can make college what you want it to be. If you want to go for two years and stop, that's fine. But there are so many different opportunities, from the many classes you can take, to the many ways you can get involved to meet students at college. You can make it worthwhile no matter where you are, no matter what your situation is. There's something for you here at HACC.
