

## Verle Valerius

[VERLE VALERIUS, a HACC student, sits in in front of a gold curtain. He is wearing a black and white striped button-front shirt and tie. He is speaking to an interviewer off camera.]

### **VERLE VALERIUS:**

I remember when I had to, when I was accepted to HACC and my concern was my success or see my grades or be successful anyways. But I wanted to know what is the problem, the basic problem, the basic things I needed to know that would prevent me from getting to my success or getting what I wanted. And I found out that it was my English. And then I decided I was going to take ESL classes. And I can say even in the beginning of this class, it was really amazing because I wanted confidence. I was after confidence. I wanted to know that I can make it through. And then I started this class with the professor. They were just like, so amazing. And and they just let you know that they're there for you. And then it was really, really, really interesting. And the other thing I would like to say about this class is because they are equipped you, they just give you tools that you need for you to follow the classes, including giving you class you need for a major. And if I can say, the class I'm taking now, it's just all the tools that have been provided. So I just keep using them whenever I'm in the situation that I need to use them.
