Dual Admission

A Dual Admission Agreement is a cooperative partnership between HACC and a 4-year college or university that facilitates the admission process for students interested in pursuing their bachelor's degree. The agreement prepares HACC students to transfer their associate degree credits into a bachelor degree program providing the student maintains the required academic standard and follows the requirements of a program parallel to the desired transfer program.

Advantages of Dual Admission

- Simplified transfer process
- Early transfer planning
- Specific program requirements from the 4-year institution

- Official transcript reviewed by 4-year institution every semester

These advantages vary by institution:
