These (credit programs) are selective admission professional programs. Admission into the college does not guarantee admission into the clinical phase of the program. Students are admitted as pre-program students and must apply for the clinical phase of the program after completing minimum admission criteria.

Be sure to look at:

- Programs Offered (choose the program you are interested in)
- Admission Criteria (health career programs are selective admission programs)–point systems and essential qualifications
- Profile of Admitted Students (Admission Criteria page)

All students accepted into the clinical component of the program must undergo annual Pennsylvania Child Abuse History Clearance, FBI Check, State Police Criminal Record Check, physical examination with immunization history and random drug/alcohol screening. **No student will begin, or continue in, the clinical component with disqualifying results.**

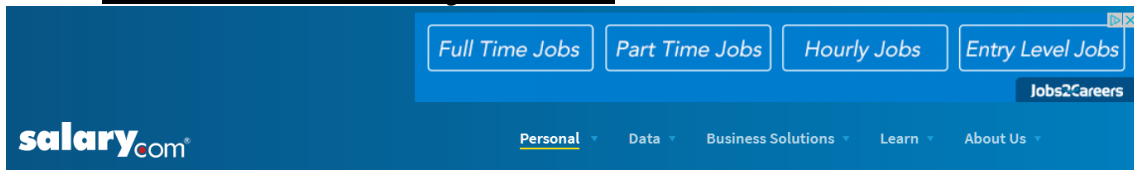

**Questions? Please contact an Admissions Counselor, 800-ABC-HACC
or email start@hacc.edu**

HACC does not discriminate in employment, student admissions, and student services on the basis of race, color, religion, age, political affiliation or belief, sex, national origin, ancestry, disability, place of birth, General Education Development Certification (GED), marital status, sexual orientation, gender identity or expression, veteran status, genetic history/information or any other legally protected classification.
